

Pawpaw Tree

Asimina triloba

- ❁ A small native tree with a short trunk and spreading branches
- ❁ Dark green summer foliage tends to droop and gives the tree a sleepy appearance
- ❁ Unmistakable purplish flowers in mid April
- ❁ Delicious edible fruit in fall that's high in vitamins A and C
- ❁ Will not tolerate direct sunlight

Height: 15 Feet

Zone: 5

Protection: Pawpaw is listed under Ontario's Endangered Species Act, 2007, which protects the species from being killed, harmed or collected, and protects its habitat from damage or destruction.

**Pawpaw Tree is in recycled pots,
