

Little Bunny Dwarf Fountain Grass

Pennisetum Alopecuroides 'Little Bunny'

- ☼ A dwarf mounding grass with fine textured foliage and distinctive white flower spikes in summer
- ☼ Provides a good accent in borders and is also effective en masse.
- ☼ Leave foliage in place over winter for interest. Cut back to the ground before new growth appears in spring
- ☼ Warm season grass that likes to grow in warm weather. Before it will show signs of life in the spring the soil must warm up, and be warm for as long as two weeks!
