

Wild Ginger

Asarum canadense

- ❁ Tough and undemanding perennial featuring downy, heart to kidney shaped matte green leaves. In spring attractive, purplish brown cup shaped flowers hide on short stems amongst the leaves.
- ❁ Vigorous grower that will spread to form colonies within a few years. Terrific deer resistant groundcover for shady areas.
- ❁ Native to Ontario, Manitoba, & Quebec

Height: 6-12 Inches

Zone: 4

Partial Sun

Full Shade

Moist, Well-Drained

Deer
