

Euphorbia Bonfire

Euphorbia Polychroma 'Bonfire'

- ❁ A dark leaved form of spurge that will hold its colour all season. Chartreuse-gold flowers contrast strikingly with the foliage in the spring.
- ❁ Needs full sun for best colour, Likes dry soil-extremely drought tolerant
- ❁ Be aware of is the milky sap that exudes from broken stems or leaves-it's not good to get in your eyes or on skin as its very irritating

Height: 12 Inches Zone: 5

Full Sun

Low Maintenance

Dry Soil

Deer

Rabbit
