

# Yellow Wall Virginia Creeper

*Parthenocissus Quinquefolia* 'Yellow Wall'

- ❁ Dark green foliage that turns to golden yellow in the fall. Fast-growing and salt tolerant vine is the easiest way to create a colorful "green wall."
- ❁ Sensational for covering, fences, stumps, trees, rough walls and steep banks. Often seen climbing up houses!
- ❁ Dark blue berries in fall provide food for birds. The berries are visible in autumn following leaf drop and provide food for birds. Self Clinging
