

# Blood Brothers Switch Grass

*Panicum Virgatum 'Blood Brothers'*

- ❁ A Canadian introduction, this Switch Grass develops outstanding foliage colour. It forms an upright, slightly vase-shaped mound of green-blue leaves, the tips developing blood-red tones by midsummer then turning black-purple by autumn. Beautiful airy plumes look like diamonds in the sky
- ❁ Provides a good vertical accent in borders and is also effective en masse. This clumping grass provides excellent food and shelter for songbirds and upland game birds
- ❁ Leave foliage in place over winter for interest. Cut back to the ground before new
