

Downy Serviceberry

Amelanchier arborea

- ❁ Covered in showy clusters of slightly fragrant white flowers in early spring before the leaves emerge. Blooms are followed by purplish black berries from late spring into early summer. Outstanding fall colour in fiery shades of yellow, orange, and dusty red
- ❁ . Attracts birds & pollinators to the garden. Fruit is often used in jams and jellies.
- ❁ Native to Ontario, Quebec, New Brunswick, Nova Scotia & Newfoundland

Height: 15-25 Feet

Zone: 4
