

# Tulip Tree

*Liriodendron Tulipifera*

- ❁ A native Carolinian tree with distinct bright green leaves that turn to a soft golden yellow in the fall. Tulip shaped flowers of green/yellow/orange in May
- ❁ Likes moist well drained loose soil where the roots will not be restricted. Grows rapidly and becomes a large shade tree so allow room to grow!

**Height: 75 Feet      Zone: 5**

Full Sun

Moist, Well-Drained

Vigorous

**Tulip Tree is in used pots,  
please disregard any codes written on the pots.**
