

# Silver Mound Artemisia

*Artemisia Schmidtiana* 'Silver Mound'

- ☼ 'Silver Mound' has soft, feathery foliage and forms a compact, silky, cushion-like mound. Combines especially well with dark leaved plants! Artemisia benefit from a hard clipping just as the tiny ball-like flowers appear, usually in mid to late June. Plants will regrow quickly and remain attractive all season long
- ☼ Best grown in poor to moderately fertile, dry to medium, soil.
