

# Clematis 'Guernsey Cream'

- ❁ Large flowered clematis with pale gold anthers surrounded by delicate creamy petals, each with a subtle yellow-green bar. As the flowers fade, the fabulous golden seed heads take centre stage to provide interest well into fall
- ❁ Blooms only on the current year's growth. Plants should be cut back in early spring to two strong sets of buds on each stem as close to ground level as possible. This will provide a plant with blooms that start near ground level and continue to the top

**Height: 8-10 Feet**

**Zone: 4**

**To help you identify the different varieties of Clematis we write a code on the side of the pot. The code for Guernsey Cream Clematis is GC**
