

Smooth Blue Aster

Symphyotrichum laeve

- ❁ Hardy plant that defies frost and keeps on blooming, often into November, with a profusion of lavender-blue flowers. The yellow center turns reddish with age. Leaves are smooth to the touch which makes this species different from most asters
- ❁ A must have plant for attracting pollinators & butterflies to your garden!
- ❁ Native to Ontario, Quebec & Manitoba

Height: 2-3 Feet

Zone: 4

Full Sun

Cut Flower/Foliage

Butterflies
