

Black Gum

Nyssa sylvatica

- ❁ Forest green, glossy, pointy leaves turn an outstanding crimson in the fall. Furrowed black bark adds an interesting dimension to the landscape.
- ❁ One of the most spectacular and reliable fall coloring trees, turning brilliant shades of red and orange, and a very neat, pyramidal habit of growth
- ❁ Also known as Black Tupelo. Usually found in wet sites that feature a shallow water table
- ❁ Native to Ontario

Height: 40 Feet

Zone: 5
