

Whorled Milkweed

Asclepias verticillata

- ☼ Upright, unbranched perennial that rambles to form colonies. Needle-like, fine textured foliage is whorled around the stem in clusters. Greenish white flowers in summer.
- ☼ Also attracts hummingbirds and hummingbird moths to the garden for nectar. Late season food source for Monarch butterflies.
- ☼ Prefers moist soil-tolerates dry
- ☼ Native to Ontario

Height: 3 Feet

Zone: 3
