

Candy Swirl Honeysuckle Vine

Lonicera x 'Inov42'

- ❁ Unique honeysuckle with richly coloured flowers of pink and orange with a sweet fragrance all summer long. After flowering blue-ish berries will appear in fall.
- ❁ Attracts hummingbirds and butterflies to your garden. Extremely easy to grow
- ❁ This vine climbs by twining its stems around narrow supports, like small branches, wires, narrow poles or wood stakes. It won't twine around the trunk of a tree as its diameter is too large and it cannot attach itself to a flat surface without wires for it to curl around

Height: Will Climb 8 Feet

Zone: 5
