

# Heart Leaf Foam Flower

*Tiarella cordifolia*

- 🌸 Tiny white to pinkish-white flower spikes in May & June. One of the best native plants for the shade garden.
- 🌸 Form a spreading mat of scalloped green leaves, turning bronze in colder months
- 🌸 An excellent woodland groundcover, preferring rich, moist soil. Runners are produced in summer and these trail around the plant, rooting to form new plantlets
- 🌸 Native to Ontario & Quebec

**Height: 12 Inches**

**Zone: 3**

**Heart Leaf Foam Flower is in recycled pots,  
please disregard any codes written on the pots.**
