

# Clematis 'Jackmanii Superba'

❁ 'Jackmanii Superba' is probably one of the most popular large-flowered, late-flowering clematis. The rich dark purple flowers are like velvet, and make a wonderful sight from June to late summer. As with all the late-flowering clematis, pruning is easy. Simply cut back the stems to a pair of strong buds 15-20cm (6-8in) above ground level before growth begins in early spring
